la suprématie; ce n'est plus Paris disant: *Moi seule je suis la République entière* et réservant toujours tout pour se l'appliquer ou pour s'en arroger l'emploi. Ici chaque département est associé à la distribution des bienfaits; chacun d'eux est dépositaire et gardien d'un moyen de puissance dont on ne croit plus qu'il puisse abuser, et pour lui prouver qu'on ne veut plus y produire de commotions, on lui destine à l'avance des moyens de calme et de bonheur. On ne rivalise plus, ou bien c'est seulement de désir de faire sortir la France de l'état où l'ont jettée des hommes qui souffraient tout de ceux qu'ils n'osaient pas envoyer à la mort.

Une autre preuve que le gouvernement a le sentiment de sa force, c'est la suppression des réquisitions militaires au moment même où le directoire exécutif se plaint d'une désertion allarmante. On se contente de mettre la force armée à sa disposition dans les cas indispensables. Voilà donc l'action du pouvoir exécutif sur tout citoyen quand il doit devenir soldat, organisée; et tant que la France aura des ennemis elle aura des défenseurs. Il ne faut pour les faire accourir par milliers que leur parler de l'infamie de recevoir une loi étrangère.

Et ce directoire exécutif il a aussi le sentiment de son importance. On a amèrement censuré le langage qu'il a pris avec les ministres étrangers et l'on a même cru que c'était lui qu'on injurait en comparant ceux-ci à des écoliers, mais il a dit en parlant à l'ambassadeur de Suède, *Les Chefs de la République Française*, et quand une grande nation, célèbre par sa valeur, est revenue, par un mouvement d'horreur pour les crimes par lesquels on s'est efforcé de la déshonorer pendant deux années, à n'avoir plus d'autre besoin que d'être libre et tranquille, ses chefs peuvent la rendre respectable aux yeux des autres nations, et la diriger de manière à convaincre ces dernières qu'elles doivent perdre l'espoir et de la soumettre et de l'exciter encore à se déchirer de ses propres mains.

Encore on est frappé d'un décret qui fait sortir des prisons, pour venir s'asseoir à leur rang de députés, des hommes, livrés à des accusations qui autrefois étaient presque toujours un signal de mort.

Ce qui nous plaît le plus de toutes ces remarques c'est qu'elles semblent faites pour fortifier encore l'espérance de la paix. Car comment concevoir l'idée d'une tranquillité durable en France, si la paix ne vient pas y ramener l'abondance en y rendant d'innombrables bras à l'agriculture, des hommes industriels aux manufactures, d'utiles spéculations au commerce? Elle seule peut y reproduire les biens qui en feraient encore un des lieux les plus délicieux à habiter, où les arts et les jouissances agréables, réunis aux douceurs de son climat, attireraient, comme autrefois, des habitants de toutes les autres contrées.

2. James K. Polk and his Constituents, 1831-1832

IN the Polk Papers in the Library of Congress is a modest booklet, made evidently by fastening together some sheets of folded writing-paper of note size.¹ In the cover is stamped "Congress U. S." in raised letters with a chaste border, indicating the source from which the paper was obtained. In the book were entered, day after day, a series of items describing a kind of service that every congressman performs and few ever have the patience or the candor to

describe on paper. That Polk gives into the confidence of this little book such a picture is as characteristic of him as it is fortunate for those who wish to see how a congressman discharged a certain important part of his duties. No man who has been a president of the United States, not even John Quincy Adams, was more methodical or more conscientious in the discharge of his official duty. Perhaps he inherited the impulse from his Scotch-Irish ancestry, for it is a Scotch-Irish trait to be downright—although one must admit that there were other members of the Polk family who were neither methodical nor painstaking. But James K. Polk did not shirk a duty. His ideals were not very elevated, but such as they were he never shirked them. To attend to the little necessities of his constituents exactly comported with his ideal of a congressman's duty. His little book shows what was the nature of these requests. It is reprinted here just as he wrote it (save for slight amendments of punctuation) and without comment or explanation.
